

Over the finishing line

You may remember in the last issue of Cloud Cover, Jane Hastings our Business Development Manager had her sights on running another half marathon to raise money for a very worthy cause - The Alder Hey Children's Hospital.

Well, congratulations are in order as Jane completed the challenge and in doing so raised a very much welcome and **hard earned £527.50**. For all of those people who were behind her and very kindly sponsored her efforts, both she and we would like to say a huge thank you!

Who will be next?
We're all looking forward to the next challenge.

Oscar Millward
"What will be his first words"

Win a bottle of bubbly!

The Accesspoint family is growing and we would like to congratulate Joe and Michelle on the birth of their first child 'Oscar'.

There has been great deliberation around the office as to what his first words will be with many humorous one liners as you can imagine. So, just to add a bit of humour to this edition of Cloud Cover, we would like to hear your suggestions and for the best caption provided, we will be giving away a bottle of bubbly! Closing date for entries 31st October 2014.

**So, fancy your chances?
Then let us have your thoughts by emailing:

Adding support where it counts

Accesspoint is about people and talent, and this month we are delighted to welcome more new faces who will strengthen our support team. Colin joins us as a Support Engineer and both Matthew and Stefan 'fresh from school' will be on our apprentice programme as Junior Support Analysts.

We wish you all a very warm welcome and a long and happy future with Accesspoint.

Colin Willett

Matthew Smith

Stefan Pavlov

AUTUMN NEWSLETTER 2014

Accesspoint

where people make the difference

Cloud Cover

Newsletter of Accesspoint Technologies
Specialist supplier of IT services to the legal industry

Welcome

Once again, I'm pleased to report that since our last newsletter there's been a lot of activity and we have continued to strengthen our position within the Legal I.T. market space, attracting and working with a wealth of new clients across the UK.

Having surpassed our original growth expectations, we reached capacity at our premises in Docklands. I am now delighted to announce that we have secured and subsequently moved to our new, much larger office space in Harold Hill where we are now well placed to continue along our growth trajectory, further strengthening service delivery by expanding our staffing compliment.

In addition to the office move, we have also been busy expanding and improving our Cloud infrastructure, providing a 'UK first' for all of our clients with a new ISO accredited data centre presence, which is totally dedicated to Legal. Owned by the award winning company Virtus,

we can now confidently boast that we have a long term home within one of the country's most modern, eco-efficient, secure data-centres where we expect to take our hosted and managed service offerings from strength-to-strength.

Finally, I would invite you to spend a little more time reading more about what Accesspoint has been doing to further our position as Independent Specialist Legal IT providers, offering new and innovative services and partnerships totally geared towards bettering your businesses and technology opportunities.

Richard Roebuck, Managing Director

A 'Yes' vote from Scotland!

The PRG Partnership
Solicitors

The PRG Partnership has provided legal, property and financial expertise along with general advice to clients for over 40 years.

In addition to their comprehensive property and commercial services, PRG offer advice and assistance in all aspects of civil litigation in both the Sheriff Court and the Court of Session, including separation/divorce, children's residence/contact, contractual disputes, damages claims alongside employment tribunal and criminal defence representation. Their private client services advise on care for the elderly including guardianship for adults with incapacity, through to estate planning, wills, trusts and executries.

With their head office based in Glasgow and 4 additional offices across Scotland, they become Accesspoint's first major Scottish client. After an introduction by the Legal Office and Ronnie Paton, and in the face of ageing IT systems and infrastructure, Accesspoint worked to develop a bespoke hosted platform and connectivity solution to best maximise performance from their new practice management system PacePro.

Work is now underway on the platform build and we look forward to bringing further news as we move towards the implementation of their live system.
